MESSAGE FROM OUR FOUNDER

Dear Students,

S.B.S. Campus is one of the echelons and multifaceted among the educational institutes in Amritsar, which believes that bright future of our country dwells on the scholars of career oriented courses. The campus has mandate to setup education in excellence in emerging paramedical and skill based technology for promoting training research and development in such areas. Forthwith we are running three Institutions in our campus including S.B.S Institute of Nursing, S.B.S Skill India Pvt. ITI and S.B.S college of Pharmacy. We are marching ahead with well directed honest effort to create peace, prosperity and growth of future paramedical scholars and skilled technicians exhibiting team work, commitment and zeal to excel in all endeavors activated by buoyant and purposeful atmosphere with a good values, discipline and determination.

The campus has rich strength of students from different states that are playing a vital role in serving the community by improving Quality and maintaining the standard of programs offered at various levels. We are doing our best to provide our students the latest technologies in education so that they open new horizons for the coming generation (millennium). I welcome the new entrants to this august institution. I am confident that your sojourn in this temple of learning will be fruitful and help you realize your cherished dreams. "Our Students success is our reward"

Mr. K.K. Arora

President

S.B.S. Paramedical Educational Society

CAMPUS HIGHLIGHTS

- Lush green, sylvan, eco-friendly surrounding brimming with pastoral beauty.
- The only Institution to be successfully running college for personality Development that imparts free-of cost training to groom the students into dynamic young ladies.
- Students-centric programs with tremendous potential for multi-dimensional growth through contemporary as well as futuristic global practices in academics, co- academics, supports and extra- mural activities.

- Last but not the least, S.B.S. Campus is a formidable group, known and acknowledged all over the country and abroad.

VISION & MISSION

Five elements of world precede five elements of our vision:

Air-Echelon

S.B.S. Campus is the echelon of Educational Institution from where the base of motives are arising and fulfilled through well organized educational modules offer a simulated teaching learning atmosphere . With our commitment we extend our services to human values health through equipping our students with a comprehensive knowledge and skills to face the demands of highly competitive world.

Sky-Enlightment

Enlightment of professional through baccalaureate, diploma, certificate courses and continuing professional education (Post certificate) programs is our target goals. The Scholars gain competency based knowledge and practical fundamentals associated to discipline, where they are exposed maximum and expanded to professional knowledge. Faculty put their sincere effort to expose the candidates to a fully fledged industry of nursing/technical/pharmaceutical in an inspiring ways. Students are enlightened with their learning opportunities appropriate to their program objectives, guidance and support that promote self growth and career satisfaction.

Water-Empiricism

SBS Campus is a Professional discipline that believes in empiricism, address the health needs of a diverse and changing society. Our Scholars assess potential and actual health needs of individual, family aggregate or community clients, Plan and deliver indicated interventions through co-operation, collaboration and consultation with clients and evaluate the outcome of health care and other disciplines. We replaced the mirrors of education with open windows where our faculty strives to train our students all practically.

Earth-Exquisite

Exquisite is exhibited in the practice of our scholars that demonstrates caring, commitment, compassion for the dignity and well being of all people by providing high quality care. Our Scholars generates knowledge by conducting high impact evidence based care engaging with client, communities and contributing to changes in standards as the role of the professional evolves. We support diversity of thought and person and foster a desire for excellence.

Fire-Empowerment

SBS Campus is a community of scholars and practitioners dedicated to the enhancement of human well being through education of inquisitive students, creative innovation with in practice, and development and dissemination of research. Our Campus strives for an environment in which all who come are welcomed and in which those who join our community will be challenged and supported to reach their highest potentials. We trust an empowerment of students with our institutional well designed goals.

INSTITUTIONAL ORDINANCE

1. Parents/guardians are requested to go through college prospectus thoroughly and comply with the instruction given there in.

NURSING INSTITUTE AMBIENCE PROFILE

The Campus

S.B.S. College of Nursing has a sprawling campus spread over an area of 6 Acres with lush green manicured lawns fenced with multicolored flower bed.

Administrative Block

Ground floor welcomes all warmly with the faculty of administration, where the higher authorities are approachable with the excellent support of clerical faculty.

Teaching Block (Students Facilitating Block)

Enough spacious, well ventilated and adequate lighted class room with all the necessary furnishings provides an ideal environment for the scholars to create an active learning environment, which is not influenced by the climate changes too

Laboratories:

We never left the heritage of nursing labs of old institutions as well as emerging trends of nursing labs in new institution. With the sincere effort of special architects, the labs are designed to facilitate the practical learning of our students and also equipped with all the recommended provisions.

1. Nursing Foundation Lab

The Major thrust of this lab is to ensure quality of nursing. Education which is purely based on empirical nursing care. Our students can practice all the nursing care related procedures here before going to clinical, to gain excellence in their practice easily. High Tech and modern instruments are available for advanced nursing skill training.

2. Nutrition Lab

Therapeutic Nutrition is a part of nursing care which focuses on diet therapy. In this lab the scholars practice various types of preparation of food, modification of diet according to the client condition.

3. Pre-clinical Lab

It's a fusion of Anatomy, Biochemistry and Microbiology, a multi-disciplinary lab with an integrated use of laboratory technologies. With an objective to achieve technologies and applications on these science. More over the models and mannequins resembles the human body parts or organs which edifies about these subjects in a better way.

4. MCH Lab

Mother and child health care is the essential component of nursing where the candidate plays a delegate role. This lab facilitates the MCH care through exposing the students to delivery mechanism and, all MCH related procedures under the guidance of our teachers.

5. Community Lab

This lab is designed like a typical village house and its atmosphere with all the equipments of an outpatient department of a community center, which believes in the principle of learning by doing

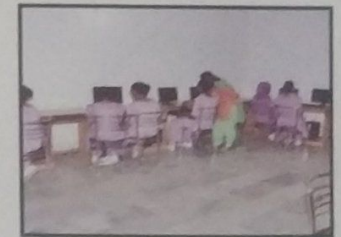

6. Library

Our Students trust on books as good companions, resources to inflate their knowledge. We never let the stones down and fulfilled their appetite of wisdom with the wide variety of books of subjects, apex bodies, other disciplines, social studies & literature etc. Our garden buds are already updated with the fragrance of many National and international journals, magazines and news Papers and internet facilities

7. Computer Lab

All pervasive presence of computers and their application in our day to day loge has made this hi-tech device indispensably important, in this lab the candidate gains skills in computer applications in nursing so that enabling them to cater to the rising demands of prospective employers as a competent nurses.

8. AV Aids Lab

Teaching- learning process becomes handicapped without audiovisual aids. Here we are proud to introduce our AV aids lab which is equipped with all forms of AV Aids from Black Board to LCD, from paper cutting to flexes and from radio tapes to digital sound system, made easily movable to any where either class room, labs or auditorium.

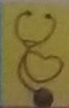

9. Auditorium & Seminar Halls

These halls serve for effective learning and also entertainments. The Academic special events fills these halls with our scholars for undergoing various of teaching learning process like seminars, group discussions, panel discussion, presentation & conference.

10. Common Room

Keeping in mind, "all work and play makes Jack & dull boy" SBS provides the students ample opportunities not only for labor but pleasure as well in the spacious and well layout common rooms for girls can relax and chatter and engage in any creative activities as after their heart's choice. While sniffing and gulping the mouth watering delicacies, being cooked in the campus canteen, down with soft drinks/ tea/ coffee.

12. CHC Fatehgarh Churian, Asr.
13. PHC Verka, Majitha, Asr.

Scope of Nursing

We are traditional but trendy too.....

- I will become a nursing teacher.
- I will become a clinical nurse.
- I want to become critical care nurse.
- I wish to be a community health nurse and educated.
- I Want to do my master.
- I would like to become a counselor & Social worker.
- I may get a post of occupational therapist in future.
- I am sure I will fly as an air and space nurse.
- Yes I am a nurse researcher.
- I can be a diet therapist.
- I will become a hospital administrator.
- I am thinking about becoming a military nurse.

Speciality : Electronics & Communication

Welcome to SBS Skill India Pvt. ITI.

True knowledge is the inculcation of right skills, attitudes and values to empower an individual to face the complexities of the present competitive world. It is definitely a dynamic process, for it entails progress - not only scientific, technological and economic but mental, physical and spiritual as well, developing the power of understanding and analyzing. Thus, it is a continuous process which goes on throughout life. In a true sense, education is not only a preparation for life, but it is life per se. The right approach to education would be to foster the latent talent in students, thereby making them confident despite their weaknesses. Education, thus, forms the basic fabric of one's personality that shapes one into a complete human being with a purpose.

The S.B.S Skill India Private ITI started in the year of 2016 is situated at Village Sohian Kalan in a sprawling campus of approximately 6 acres. It is a co-educational institute with four trades. High standards and expectations for each student in regard to academic performance, co-curricular participation and responsible citizenship are the foundation of our Institute. It is with pride that we hold these high standards and ask each of our students to commit in maintaining the extraordinary record of achievement and contribution that has been the legacy of our Institute. It is the contribution of our students to our community that makes our Institute an exceptional learning community. Full participation in academic and co-curricular programs and a willingness to act responsibly as an individual within our educational environment are the factors that enable all to have a successful year

Er. Rajan Vohra

Principal
SBS Skill India Pvt. I.T.I.

Admission Policies :

- 1) Candidates applying for admission should not below than 14 years as on 1st of August & the Admission Year. Age Relaxation is given below:
 - 45 years in case of ex-servicemen. 45 years in case of war widows.
 - Widows/separated women would be allowed to join various training programmers under C.T.S. up to the age of 35 years.
 - The upper age limit for physically handicapped candidates is relaxed by 10 years.
- 2) Candidate should be physically fit for the work involved in the trade for which they are to be trained.
- 3) He/she should be of good moral character.
- 4) Candidate will be selected by admission committee constituted for the purpose.
- 5) Admission will be done as per norms of DGT Delhi & Punjab State Board of Technical Education and Industrial Training, Chandigarh.
- 6) The admission will strictly will be made on merit i.e. on the basis of marks obtained in the entry qualification of each trade mentioned in the prospectus issued by the Board.
- 7) Original certificates and testimonials and fees will be required at the time of admission. Candidates without the same will not be admitted and their seat will be offered to the next candidates in order of merit.

Cultural

Bonanza

ITI INSTITUTE PROFILE

Ground Floor Welcomes all warmly with the faculty of administration, where the higher authorities are approachable with the excellent support of official icons.

TEACHING BLOCK

Enough spacious, well ventilated and adequate lighted class room with all the necessary furnishings provides an ideal environment for the scholars to create an active learning environment , which is not influenced by the climate changes too.

LIBRARY

Our students trust on books as good companion's books are resources to inflate their knowledge. We never let the stones down and fulfill their appetite of wisdom with the wide variety of books on subject, apex bodies, other disciplines, social studies & literature etc. Our garden buds are already updated with the fragrance of many national and international Journals, Magazines and Newspapers and Internet facilities.

LABORATORIES

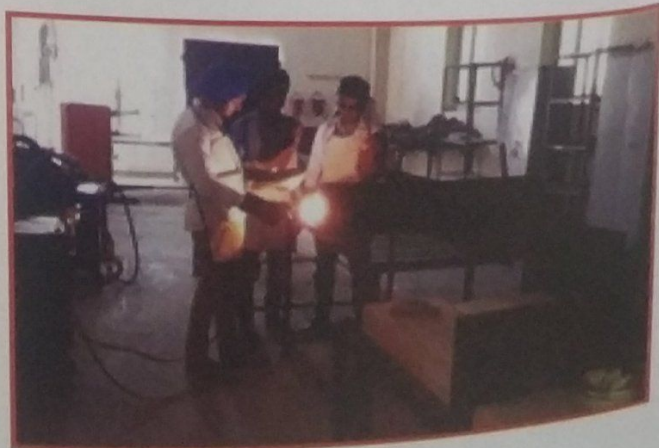

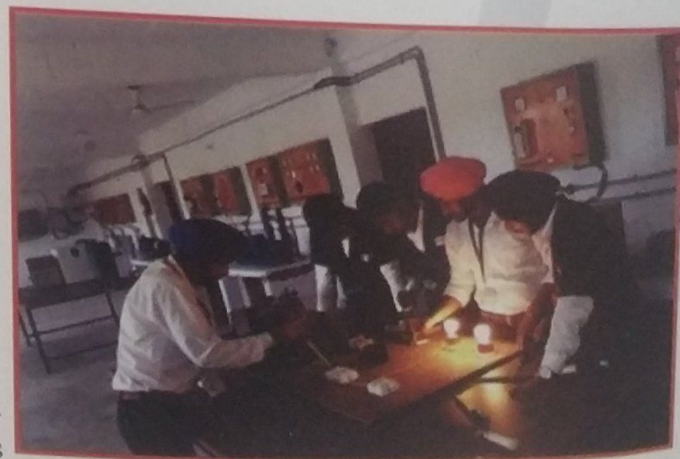

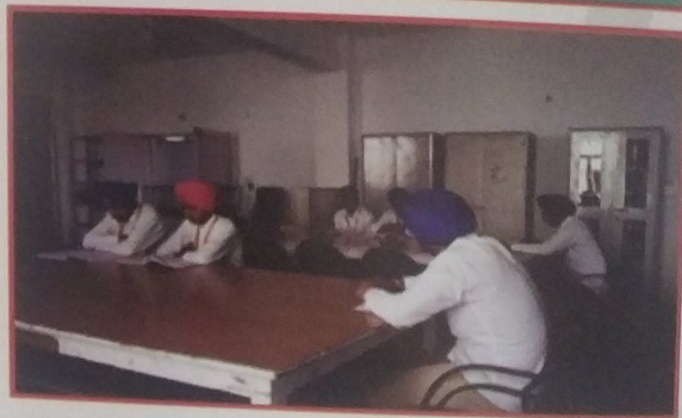

We have left the heritage of ITI labs of old institutions as well as emerging trends of ITI labs in new institution. With the sincere effort of special architects, the labs are designed to facilitate the practical learning of our students and also equipped with all the recommended provisions.

1. Electrician Lab :

In this lab we have different types of tools used for industrial work. Also we have different types of motors, generator sets, alternators and domestic appliances, all types of electrical & electronic meters such as energy meter, multi meter, watt meter, digital meter & analog meters etc.

2. Welder Lab :

We have all types of Welding Machines such as Arc welding (AC & DC), Gas welding, Spot welding, GMAW, TIG Welding, Plasma Arc Welding, Power Hexa Machine, Grinders etc.

3. Health Sanitary Inspector Lab :

In this lab students learn to make different types of models of Waste Water Treatment Plant, Soil Conservation System, Surface Water Treatment Plant, Solid Waste Treatment Plant, Ventilation etc.

4. Plumber Lab :

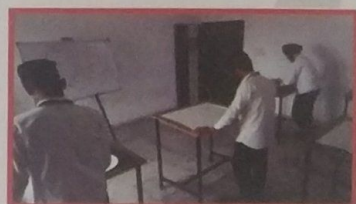

In this lab to make different types of connections of pipes used for water supply and waste water supply with help of elbows, tees & other types of jointing material etc

5. Computer Lab :

In this lab we are giving the knowledge of basics of computer and technical software like: AUTOCAD, CAD/CAM

6. Drawing Hall :

In Drawing Hall, student Learn to prepare drawings of various parts of machines and tools

Apex bodies of ITI courses:

S. No.	Department	Approved	Affiliation
1.	SBS Skill India Pvt. ITI	Approved by QCI/DGET Vide Ref. No. DGT - 12/1/2016-TC	PSBTE & IT Chandigarh

Courses Offered Under ITI

S. NO.	COURSES OFFERED	ELIGIBILITY CRITERIA	INTAKE	DURATION
1	Electrician	10 th pass	40	2 Year
2	Plumber	8 th pass	48	1 Year
3	Welder	8 th pass	40	1 Year
4	Health Sanitary Inspector	10 th pass	48	1 Year

FEE STRUCTURE- Fee structure is as per DGT/ TECHNICAL BOARD Norms

Curriculum

The curriculum of each trade is uniformly sub-divided into activities and tasks to be carried out every week. The curriculum of most of the trades has been revised and updated by the trade wise committees constituted by the Director General Employment & Training (DGET). The curriculum also shows the achievement level at the end of each unit.

COURSE AND EXAMINATION SCHEME

(Electrician- 1st Year)

S. No.	Subject	Hours	Exam	Total Marks
1	Electrical Theory	4	DGT Delhi	100

Opportunities after ITI:-

Candidates after completing ITI have both academic and job oriented prospects to continue with :

- ➔ Aspirants who have passed ITI can go for specialized short term courses in Advanced Training Institute (ATI) or for courses that are exclusively for the candidates who want a job at foreign location
- ➔ Aspirants can also apply for higher studies like Diploma in Engineering. As there is abundance of job opportunities in the private and public sectors for engineering trades (Welder, Plumber, Electrician, Turner, Hardware fitter, Mechanics etc.)
- ➔ Central/State Government organizations like Indian Army, Navy, and Air force provide opportunities for ITI passed candidates of different trades.
- ➔ Candidates have ample opportunities in private sector as well.
- ➔ ITI qualified people can also set their own business like can open winding shops, can start motor garage or repairing workshops, can operate generators etc.
- ➔ Skilled workers also have bright opportunities in Foreign Countries.

TIE-UP WITH COMPANIES :-

- 1) Raj Cycles (India) Private limited, Amritsar
- 2) Shiv Shakti Electric Works, Amritsar
- 3) Milap Wire Products, Amritsar
- 4) Pratap Electrical Industries, Amritsar
- 5) Life Kare Super specialty Hospital, Amritsar

Qualification : M. Pharmacy

Experience : 21 Years

Speciality : Pharmaceutics

Welcome to S.B.S. College of Pharmacy

It gives me a great pleasure to welcome you to SBS College of Pharmacy. Though we are in the phase of inception but committed to strive for the quest towards quality education and developing of socially sensitive competent technocrats in the field of Pharmacy, who can compete on national and international arena. The infrastructural facility, well equipped laboratories with sophisticated instrumentation, digitalized computer lab, devoted and hard working staff catalyses our effort to provide best education to sharpen the skills and enhance the knowledge in our students. The institution not only educates but enables everyone to inculcate discipline, determination and dedication and provides excellent and enthusiastic healthy environment that prepares the students to face any future challenges and help them become *“Next Generation Pharma Professionals”*. I feel proud to serve this esteemed institution to keep its tradition and legacy with effort to overcome limitations to bring up the opulent environment of ensured success.

“We cannot always build the future for our youth, but we can build our youth for the future”.

Wish you all good luck.

Mrs. Amrita Raina
Principal
S.B.S. College of Pharmacy

SBS College of Pharmacy

In the environment of rapidly changing technology, polarized with global competitive intelligence, SBS College of Pharmacy is established. The institute is approved by Pharmacy Council of India (PCI) New Delhi, recognized by the Directorate of Technical Education, Government of Punjab and IKG Punjab Technical University, Jalandhar. It offers the Two years Diploma in Pharmacy (D.Pharmacy.) and the Four years Bachelor in Pharmacy (B.Pharmacy.) course with an intake capacity of 60 students. SBS College of Pharmacy firmly believes in its strength and tries to remain at the forefront of Pharmaceutical education and research by manifesting excellence and meeting the challenges of global competitive environment. At SBS we have zeal to groom leaders who are not only thorough professionals but also good human beings with good values and excellent interpersonal skills. We aim to be a world class center for professional learning driven by professionalism, dynamism, innovation and good value system. The college has world class Infrastructure with State of art facilities. The Institution also gives special emphasis to soft skills and giving students appropriate knowledge to face modern world man power requirement.

Course	Approved	Intake
D-Pharmacy	PSBTE & IT/DA/ Affiliation/2018/263 PCI - 1936	60
B-Pharmacy	IKG PTU/Reg/Affiliation/ 2296 – 2303 PCI – 1936	60

Fee Structure

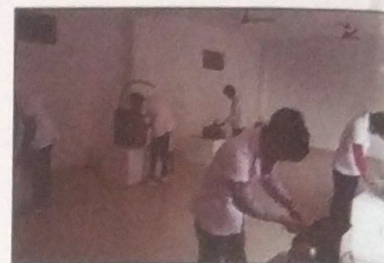

Fee structure is as per Government of Punjab and IKGPTU.. This may be revised.

FACILITIES & LABORATORIES

1. Pharmaceutics Lab

Pharmaceutics is the discipline of pharmacy that deals with the practical aspects of manufacturing, formulation and evaluation of various pharmaceutical dosage forms. A graduate shall be able to formulate, store, dispense, and analyze the prescription and/or manufacture the pharmaceuticals and cosmetics at the commercial level. The subject also helps the student to acquire knowledge and skill to apply quality assurance principles, including legal and ethical aspects involving drugs, delivering a quality assured product as per the pharmacopoeias, WHO and ISO standards. Practical aspects of product detailing and marketing of pharmaceutical products are also taught.

2. Pharmaceutical Chemistry Lab

Pharmaceutical Chemistry is applied chemistry which embraces organic, bioinorganic, physical, phytochemical and analytical chemistry. These disciplines are applied in the preparation, synthesis, Isolation and characterization, standardization, interpretation of drug interactions and analysis of chemical substances for medicinal use. The focus of the department is on the fundamental concepts and principles in organic, physical, medicinal and analytical chemistry to pharmaceuticals and then relate these concepts to drug synthesis, manufacturing and quality assurance in the practice of pharmacy.

Pharmaceutical Chemistry enables the student to synthesize, purify and identify the medicinal agents. This lab provides facilities for training basic and advanced concept of organic chemistry. The lab is well equipped with latest instruments to impart training to the students. They are familiarized with various organic compounds by their nature, physical and chemical properties and usage in chemical reactions and pharmaceutical industries

3. Pharmaceutical Analysis Lab

The Pharmaceutical analysis looks after the quality control and quality assurance aspects of medicines. This lab is equipped with glassware for pharmaceutical analysis like burette, pipette, volumetric flasks, measuring cylinder micro pipette etc. This Lab helps students to learn about qualitative and quantitative analysis of drugs in accordance with various pharmacopoeias method. The lab is specifically designed for the students to study various analytical methods like titration, conductometry, potentiometry, limit tests and the principles of volumetric and electro chemical analysis. The lab is equipped with modern equipment like conductometer, potentiometer, pH meter, and UV spectrophotometry to develop analytical skills of the students.

4. Pharmacognosy Lab

The subject of Pharmacognosy deals with drugs of natural sources like herbal drug cultivation methods, bio-technological methods, formulation and production of pharmaceutical herbal products and their evaluation. The students will develop adequate skill to extract, purify, identify, and know the therapeutic value of herbal/crude/natural products. The lab provides esteemed guidelines to the students regarding natural source of drugs and phytochemical screening through various instruments. The laboratory is utilized for morphological and anatomy study of drugs of natural origin. The lab is associated with a museum in which herbal drugs are displayed. A herbarium is also maintained in the lab for identification of the medicinal plants

A Botanical garden in the campus is available to cater the need of pharmacognosy lab. This is the place where the students study the aspects of natural drugs. The lab is equipped for identification, isolation of phytopharmaceuticals, macro, microscopic, physical & chemical characterization of natural drugs.

5. Anatomy & Physiology Lab

It is established to understand the Human Anatomy and Physiology of diseased state with the help of charts, models including human skeleton and various types of apparatus. During the course of study, the students understand the detailed anatomy and physiology of various organs of the human body. Experiments for blood count, hemoglobin measurement, blood group, blood pressure and tidal volume estimation are conducted. This course provides an introduction to the structure and function of the human body. It begins with an orientation to the body and then covers the functions of a generalized cell – the atoms and molecules that make up organic molecules, tissues, organs, organ systems as well as the integumentary, skeletal, muscular and nervous systems. The focus is on the healthy functioning of the body and consideration of how each system contributes to overall health and the maintenance of homeostasis. This course covers the nervous system and the senses in addition to the endocrine, circulatory, respiratory, urinary, digestive and reproductive systems.

6. Pharmacology Lab

The laboratory provides to the student to basic methodologies used to evaluate how drugs modify physiological functions, through interactions with specific receptors at distinct sites. It gives an hands on experience to measure and calculate several important parameters .

This helps the student gain knowledge and scientific information regarding pharmacology of drugs, practical aspects of pharmacological screening for various medicinal agents using the animal model for pharmacology calculations, biological standardization, and in vivo drug interactions and toxicity studies. The lab has all the equipments to investigate various drug samples like convulsiometer, analgesiometer, histamine chamber etc.

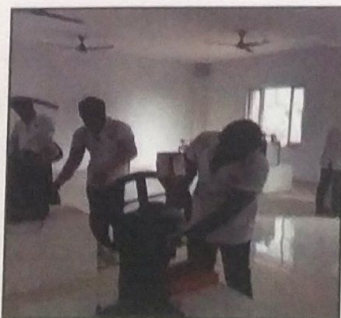

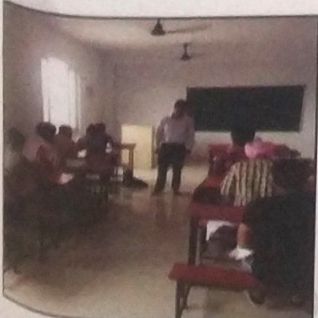

7. Pharmacy Practice Lab

The subject of Pharmacy Practice deals with Hospital, Clinical and Community Pharmacy. It provides understanding of the processes involved in providing primary healthcare, drug information and other clinical pharmacy service in different practice environments. This enables students to acquire knowledge of clinical studies for patient counseling drug information, adverse drug reaction monitoring, toxicological studies, and therapeutic drug monitoring and other similar aspects of Clinical Pharmacy.

The lab also focuses for the analysis of biological samples like urine, blood, sugars, amino acids, cholesterol, fats. It is well equipped with modern equipment like centrifuge and UV spectrophotometer for conduct the experiments as per syllabus.

8. Machine Room

According to the guidelines of AICTE and PCI we have a well equipped machine room with various instruments like tablet punching machine, Capsule filling machine, Ampoule washing and filling machine, bottle filling sealing machine etc which help the students to learn easily.

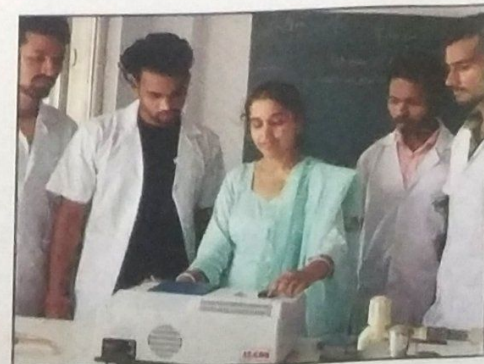

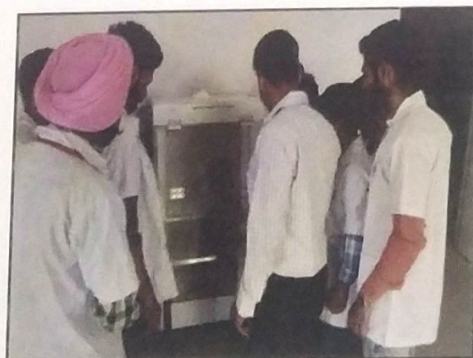

9. Computer Lab

The college has a well equipped computer Laboratory with highly configured computer systems, with various printers, LCD and Broadband capacity. All are connected to the centralized LAN. The computer lab is provided to the students for project work, power point presentations and surfing to keep them updated to face the competitive world.

10. Library

The Library is an essential component of the institute's outstanding education and research mission. It is an area where students can place themselves comfortably with the books to seek and enhance information. The college has well-stocked library with a large number of books on subjects related to the course taught, in addition to literary volumes, ready reference encyclopedias etc. The college subscribes to all important newspapers, magazines, national and international books and journals.

SCOPE OF PHARMACY

Career in Pharmacy

Pharmaceuticals are important in all aspects of health care and have proven itself to be the most cost-effective means of treating some diseases. Pharmaceutical industry is one of the largest and fast growing industries in India. Increasing number of hospitals, nursing homes and pharmaceuticals companies all over the country is a clear indication of the growing scope in this area.

Academic

As a Lecturer at Diploma in Pharmacy College and As a Lab. Technician, Store In-charge at Pharmacy College and Asst. Prof. at Degree Pharmacy College.

Hospital Pharmacy

As a hospital Pharmacist at any hospital to perform dispensing, compounding, documentation of medical records, trainee of drug information center and therapeutic drug monitoring.

Pharma Industries

Production & Manufacturing Area : As A Production Officer / Chemist to perform at Bulk Production of drugs, Production of Intermediates formulations, Cosmetics, Cosmeceuticals, Nutraceuticals, Toiletries, Dentifrices, Blood & Plasma derived products, Surgical dressings & Sutures, Biological and Biotechnological Products, Herbal & Ayurvedic formulations, Perfumery Products, Biocides & Pesticides, Fragrances & Aromatics, Food & Beverages, Veterinary Formulations.

Quality Assurance & Quality Control Department: As an officer to perform analytical testing of drugs, formulations, food & water samples, chemicals, intermediates, diagnostic reagents and bioassays, immunological and radioimmuno assays.

Regulatory Affairs : As an officer to perform Dispensing & Monitoring Vigilance Manufacturing, Quality Control, Quality Assurance, Storage, Distribution & Sales of Drugs & Pharmaceuticals through Food & Drug Administration and Drug Controller General of India.

Drug Inspector

Becomes a drug Inspector under Food & Drug Administration after qualifying *entrance test* of respective State.

Marketing & Sales

As a Retail Chemist of own Medical Store / Bulk Drug Store; As a Medical Representative of Pharmaceutical products, Marketing management, Products management, Medico-marketing services, Export & Import management, Retail & Wholesale Distribution & Logistic, Business management.

Global Opportunities

Indian Pharmacists are well accepted after qualifying needful examination of western countries like USA, UK, Canada as well as Australia, Japan, China, New-Zealand as a Community Pharmacist and Hospital Pharmacist. They can also serve at Pharma-Industries.

GHARONDHA (HOSTEL CAMPUS)

The College boarding house is situated within the precincts of the college and consists of two floors. Hostel life in SBS Campus invites the boarders to enjoy their sojourn in a home away from home in the most fruitful and truly memorable way. Personal attention and care is given to the students by the Principal and staff with frequent visits to the hostel. A spacious dining hall with a modern kitchen equipped with the latest gadgets has an absolutely hygienic have been made in the hostel to provide academically conducive safe and secure above all economically affordable accommodation with homely ambience.

- State of the art and hygienic mess.
- STD/PCO facility.
- Provision of coaching for students.
- Cubicle facility exclusively for merit scholars.
- Celebration of all major festivals with gusto.
- Recreational facilities like television, indoor outdoor games and movies.
- 24 hrs. Medical care along with physical fitness classes.

Ms. Navdeep kaur (B.Sc. (N) 4th Year) “It was with a lot of trepidation in my heart that I joined B.Sc.(N) course a newly introduced course in SBS College of Nursing. But it all vanished after my 1st day in the class. Expert teaching of the faculty, their help and support at every steps and the total learning atmosphere made me lead ahead and bag the 2nd Position in Amritsar in my very first year”

Ms. Jandeep Kaur (GNM 3rd Year) “My Three years at SBS college of nursing the best and most formative of my life I will get a diploma and job placement in my hands credit goes to tireless efforts of the college who are always on their toes to search out the best outcome, jobs and fit students into them accordingly. So I will be here again for my degree in the future”

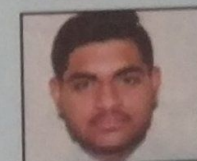

Ms. Manpreet Kaur (ANM II Year) “I feel auspicious for being the student of S.B.S college of Nursing where I am observing the commitment to nurturing positive attitude towards learning and fostering learning for life and I am very happy to say about English speaking classes and personality development programs. I bagged III position in my I year in Amritsar district level”.

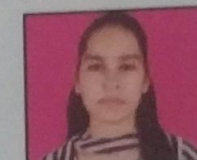

Ms. Kavitha Kutlehria (Post Basic B.Sc (N) II Year) “I am ironclad with the academic and extracurricular programs of our institution for my life. Here is the outstanding opportunity for the enrichment and extension of our knowledge and skills”.

Mr. Gitesh Mehra (D pharmacy 1st Year) “I had an amazing experience in this college. The infrastructure is the best. It is surrounded by rich greenery. Adequate sports facilities are available and library is up to date. I have learnt a lot here.”

Ms. Archana Sharma (B Pharmacy 2nd Semester) “I think it is very helpful having teachers that make you want to study and make you learn new things. Amazing classmates, amazing teachers, everyone is very friendly and motivated to learn.”

Mr. Manav (B Pharmacy 4th Semester) “I feel proud to be a student of SBS College of Pharmacy. All the teachers are equipped with wide knowledge in their field. Faculty is extremely supportive they help students in each and every problem which results in good career.

Mr. Manpreet Singh (Welder) “When I came here as a teenager, my teacher quickly recognised my capabilities & potential. they are fostering me in practical training which gives me confidence, a sense of achievement.

Mr. Amritpal Singh (Electrician 2nd Year) “I feel proud to be the student of SBS Skill India Private ITI. I feel this is not nearly an education institute, it offers ample of choice to build our personalities, to cultivate our extra curricular activities which support me as an all rounder.
